

TJ Lane Thimble Sizing

Noted silversmith Tommie Jane Lane designed the Jinny Beyer thimble after consulting with Jinny about what she likes best in a thimble. To determine what thimble size would work best for you, use this thimble sizing guide.

To check your thimble size, print this page. Make sure your printer is set to 100%. Do not reduce the size of the page.

Wrap a piece of paper (about 1/4" - 1/2" wide) around your finger, between the base of your nail and your first knuckle where the edge of the thimble would rest. With a pen, mark the point on the paper where the end meets.

Place the paper on the sizer print out below. Measure from the long straight line to the numbered area. Your pen mark will show you your size. Include this number in "special instructions" when ordering.
